

MERT DİKDAŞ

BACKEND DEVELOPER

Istanbul, Türkiye - 0536 676 32 40 - dikdasmert@gmail.com

[GitHub](#) | [LinkedIn](#) | [LeetCode](#) | [Portfolio](#)

Summary

Fourth-year Computer Engineering student at Ege University with a 3.87/4.00 GPA and hands-on software development experience through internships at Flyrank AI and Vestel Electronics. Experienced in Java, Python, Spring Boot, FastAPI, REST APIs, SQL, Docker, and Kubernetes. Built SmartWallet, a microservice-based personal finance application, gaining practical experience in microservice architecture, asynchronous communication, and containerized deployments.

Work Experience

Backend AI Engineering Intern, Flyrank AI

Jul 2026 - Present

- Developing backend services and AI-powered features using Python, REST APIs, and databases.
- Using AI-assisted development tools to support software development workflows, problem-solving, and productivity.

Software Engineering Intern, Vestel Electronics

Aug 2025 - Sep 2025

- Worked in Vestel Electronics' TV Software Department, contributing to software development and existing system analysis using C++.
- Developed a tool that synchronized graphic files with their corresponding source files, improving file organization and development workflow.
- Gained experience working with an established software codebase and real-world software development processes.

Projects

SmartWallet — Personal Finance Management Platform

- Developed a microservice-based personal finance application using **Spring Boot, RabbitMQ, Docker, and Kubernetes**.
- Implemented services for authentication, transactions, budgeting, notifications, and financial analytics, with REST APIs and asynchronous inter-service communication.

AR-GE JAM: Participated in a 24-hour Game Jam organized by Ege University R&D Club, working as a coder and developing game mechanics in Unity for the theme Santa's Last Mission.

Hour Of Code: I taught algorithm concepts to 4th-grade elementary school students at the Hour of Code event organized by IEEE.

Code Prix — Paribu: Placed 6th in the İzmir stage of Paribu's Code Prix competition in 2025, solving algorithmic programming challenges.

Education

Bachelor of Computer Engineering,

Aug 2022 - Jun 2027

Ege University

- GPA: **3.87/4.00**

Skills

- **Technical Skills:**
 - Programming Languages: **Java**, Python, SQL
 - Backend: **Spring Boot**, FastAPI, REST APIs
 - Databases & Messaging: PostgreSQL, RabbitMQ
 - DevOps & Tools: **Docker**, **Kubernetes**, Git, GitHub
 - Software Development: OOP, Layered Architecture, **Microservices**, API Development
- **Languages:** Turkish - Native, **English - B2**

Certificates

- **Master Microservices with Spring Boot and Spring Cloud** - Udemy
- Artificial Intelligence 101 Bootcamp - Techcareer
- Supervised Machine Learning: Regression and Classification - DeepLearning.AI
- Python Data Fundamentals - DataCamp
